## **FINTECH SELECT ANNOUNCES THE OFFICIAL LAUNCH OF THE SELECTCOIN PLATFORM AND THE COMPLETION OF PRINTING 10,000 SELECTCOIN SWIPE CARDS**

Toronto, ON, December 18, 2017 – Fintech Select Ltd. (“**Fintech Select**” or the “**Company**”) (TSX-V: FTEC) is pleased to announce that the Beta testing of the Selectcoin platform has been successful, and the company will now officially begin launching the Selectcoin platform across its retail locations and other strategically positioned pop-up shops.

Upon the company’s approval of the Beta test and the pre-production cards last week, over 10,000 Selectcoin swipe cards have been printed.

Fintech Select would like to invite its shareholders, as well as the general public, to its launch event on Thursday, December 21 at 80 Spadina Ave-Unit 208 between the hours of 12pm and 6pm. During this time, shareholders, and the general public, will be able to view the Selectcoin platform in action, and will be of the first customers to take part in the purchasing of Bitcoin (fractional amounts are available from as low as \$100).

Initial POS retail locations are being setup, and we expect to go live after the launch event, as we will continue to activate the other locations on an ongoing basis across Canada.

“The entire company is excited that we were able to meet specific deadlines to launch our Cryptocurrency POS solution before the end of the year”, states Mohammad Abuleil, CEO and President. “None of this would have been possible without every individual who worked tirelessly to make this happen.”

About Fintech Select Ltd.

*Fintech Select is a provider of robust and disruptive Pre-Paid Card programs, mobile banking solutions and Cryptocurrency technologies. Fintech Select has enabled these core assets which operate through separate divisions to work together harmoniously to create a new and ubiquitous environment for consumers and businesses alike. Fintech select also operates an international call centre that provides fulfillment and customer service support to customers across all three platforms mentioned. Our mission is to provide customers with choice, convenience and cost-effective ways to facilitate traditional and crypto financial transactions.*
